Skills

Languages:

Typescript, Javascript, Java

Development:

React Js, Next Js, Recoil, Tailwind CSS, Express Js, Node Js, MongoDB, PostgreSQL, Prisma, Redis, Docker

Experience

Typescript Devloper Intern, Gamers Tag

09/2024 – 12/2024

- Collaborated with a team of interns to develop the entire company website from scratch for a startup focused on the gaming community.
- Took ownership of major decisions regarding the website's architecture, features, and design in the absence of senior developers.
- Designed and implemented a user-friendly and visually appealing gamers' platform utilizing TypeScript, modern frameworks, and best practices.

Projects

Java Microservices Scalable E-commerce Application

Technologies: Java, Spring Boot, PostgreSQL, Kafka, Keycloak

- Developed a scalable e-commerce microservices application using Spring Boot and event-driven architecture.
- Implemented resilience patterns, including circuit breakers and retry mechanisms, to ensure system reliability.
- Designed and integrated event-driven communication between services using Kafka.

Library Management System

- Led the development of a library management system for my college, **managing a team of four developers**.
- Oversaw the project timeline, assigned tasks, and coordinated team efforts to meet project deadlines.
- Developed a **RESTful API** using Node.js and Express.js to handle CRUD operations, user authentication, and other business logic.
- Successfully deployed the system, resulting in a **30% increase in efficiency of library operations**.

Achievements

Founder & President, CodeXP Club, Vishwa Vishwani Institue of Management

11/2024 – present

- Established the first coding club at Vishwa Vishwani Institute of Management, fostering collaboration in web development and cybersecurity.
- Organized coding bootcamps and workshops, promoting hands-on learning and innovation.
- Mentored peers in technical domains, providing guidance on best practices and project implementation.
- Built a thriving tech community, equipping members with skills to tackle real-world challenges.

Organizer, First 24-Hour Hackathon

- Organized the college's first 24-hour hackathon, providing a platform for 250+ participants to innovate and compete.
- Managed logistics, participant engagement, and event coordination to ensure a seamless experience.
- Gained leadership skills by overseeing teams, resolving challenges, and fostering a culture of creativity and problem-solving.

Developed Library Management System for College

- Led a team to design and implement a comprehensive library management system, streamlining book inventory, borrowing, and returns.
- Contributed to developing the website, ensuring a user-friendly interface and smooth backend integration.
- Collaborated with stakeholders to gather requirements and deploy the system, significantly improving library operations.

Education

BS - Computer Sceince, Vishwa Vishwani Institute of Management

2022 – present
